LETTER OF TRANSMITTAL

WAR DEPARTMENT,
ARMY MEDICAL LIBRARY,
June 30, 1943.

Major General NORMAN T. KIRK,
The Surgeon General, United States Army.

GENERAL:

I have the honor to report the completion of the Eighth Volume of the Fourth Series of the Index-Catalogue of the Library of The Surgeon General's Office, the fifty-fifth volume of the entire series. The volume contains references to medical subjects classified under headings from *Iberis* to *Justarestiform Body*, and the books of authors whose names begin with I or J.

In addition to the regular text of the Catalogue, this volume also contains a few pages in continuation of the list of abbreviations used in the references. Wartime demands upon the Library and upon the Government Printing Office made impracticable the printing and publication of the other supplements which were to have been issued with this volume. However, the preparation of the Sixteenth Century Bio-Bibliography of Medical Authors by Dr Claudius F. Mayer, and the collection of further data on international and national congresses have been continued and both projects are far enough advanced so that supplemental fasciculi of substantial size can be published as soon as normal conditions return.

The Eighth Volume consists of 757 pages. The following table shows the number of titles in the Index-Catalogue, as far as published:

	Author titles	Subject titles	
		Books	Journal articles
First Series (v.1-16, 1880-95, edited by Dr Robert Fletcher)	176, 364	168, 537	511, 112
Second Series (v.1-17, 1896-1912, edited by Dr Robert Fletcher; v.18-21, 1913-16, edited by Dr Fielding H. Garrison)	169, 812	136, 405	645, 557
Third Series (v.1-2, 1918-20, edited by Dr Fielding H. Garrison; v.3-10, p. 1-784, 1922-32, edited by Dr Albert Allemann; v.10 from p. 785 on, edited by Dr Claudius F. Mayer)	88, 876	57, 034	603, 600
Fourth Series (v.1, 1936 on, edited by Dr Claudius F. Mayer):			
Volume One (A) 1936	2, 779	4, 454	71, 168
Volume Two (B) 1937	8, 892	3, 631	79, 874
Volume Three (C) 1938	4, 281	4, 302	77, 479
Volume Four (D) 1939	3, 798	4, 375	55, 950
Volume Five (E, F) 1940	5, 499	5, 630	88, 048
Volume Six (G) 1941	5, 836	3, 125	58, 871
Volume Seven (H) 1942	6, 443	6, 542	60, 502
Volume Eight (I, J) 1943	2, 928	3, 616	51, 319
Total to date	475, 508	397, 651	2, 696, 515

The Library now contains 430,954 volumes and 628,753 pamphlets of all sorts, including letters, broadsides and medical theses. During the last fiscal year 10,532 works have been purchased or received as gifts. The Library has also acquired many rolls of microfilms of medical and other scientific serials published abroad; thus, the integrity of the Index-Catalogue is guaranteed despite the disturbed conditions of the book markets.

Among the old books and rarities recently purchased, the following deserve special mention: HENRICUS DE SAXONIA: *Albertus Magnus de secretis mulierum et virorum, cum commento* (Leipzig, 1500); HUISMAN, R.: *Nonnulla opuscula* (Basel, 1518); MORE, T.: *De optimo reipublicae statu* (Basel, 1518); BOUCHET: *Les triumphes de la noble at amoureuse Dame* (Paris, 1536). The Library also increased its material in medical illustrations and portraits by the purchase of the Hunt Collection, consisting of more than 1,400 pieces. The illustrative material is catalogued and classified, and is becoming a part of the references published in the Index-Catalogue. In addition, the Library received a number of gifts including many engravings of portraits not in its Collection.

The Index-Catalogue is now distributed free to about 800 domestic and foreign scientific institutions, including the depository libraries of the United States Government. Unfortunately, 65 copies of Volume Six (G) shipped to the British Isles were lost by enemy action. To serve as temporary replacements of the original current volumes of the Index-Catalogue, microfilm copies have been made and shipped to foreign libraries where requested.

Very respectfully,

HAROLD W. JONES,
Colonel, Medical Corps, United States Army,
The Librarian, Army Medical Library.

SIXTH ADDITION TO THE LIST OF ABBREVIATIONS FOR SERIAL PUBLICATIONS

Published in the Second Volume, Fourth Series, of the Index-Catalogue

DISTRIBUTION LIST OF THE INDEX-CATALOGUE

* Denotes official depositories of U. S. Government publications; numbers in parentheses indicate the series of the Index-Catalogue received by the institution

AFRICA

EGYPT.

Cairo.—Ministry of education; Egyptian university; Faculty of medicine (1, 2, 3, 4)
Cairo.—Société royale de médecine (1, 2, 3, 4)

SOUTH AFRICA (Union of)

Johannesburg.—South African institute for medical research; Library (3, 4)

AMERICA

ARGENTINA.

Buenos Aires.—Departamento nacional de higiene (4)
Buenos Aires.—Universidad de Buenos Aires; Facultad de ciencias médicas; Biblioteca (1, 2, 3, 4)

BRAZIL.

Porto Alegre, Rio Grande do Sul.—Dr Saint Pastous (3, 4)
Rio de Janeiro.—Academia nacional de medicina (1, 2, 3, 4)
Rio de Janeiro.—Faculdade de medicina; Biblioteca (1, 2, 3, 4)
São Paulo.—Universidade de São Paulo; Faculdade de medicina; Biblioteca (2, 3, 4)

CANADA.

Edmonton, Alberta.—University of Alberta; Provincial laboratory (2, 3, 4)
Halifax, N. S.—Dalhousie university; Medical and dental library (3, 4)
Kingston, Ont.—Queen's university; Library (2, 3, 4)
London, Ont.—University of Western Ontario; Medical library (2, 3, 4)
Montréal, Qué.—McGill university; Medical library (1, 2, 3, 4)
Montréal, Qué.—McGill university; Osler library (3, 4)
Ottawa.—Department of agriculture (2, 3, 4)
Ottawa.—Department of militia and defense; Director General of medical service (3, 4)
Québec, Qué.—Université Laval; Faculté de médecine; Bibliothèque (3, 4)
Toronto, Ont.—Academy of medicine (1, 2, 3, 4)
Toronto, Ont.—Royal Canadian institute (3, 4)
Toronto, Ont.—University of Toronto; Library (1, 2, 3, 4)
Vancouver, B. C.—University of British Columbia (2, 3, 4)
Vancouver, B. C.—Vancouver medical association (2, 3, 4)
Victoria, B. C.—Victoria medical society; Library; Royal jubilee hospital (3, 4)
Winnipeg, Man.—Provincial library of Manitoba (1, 2, 3, 4)

CHILE.

Santiago.—Instituto bacteriológico de Chile (3, 4)

CUBA.

La Habana.—Academia de ciencias médicas, físicas y naturales de La Habana (1, 2, 3, 4)
La Habana.—Biblioteca nacional (1, 2, 3, 4)
La Habana.—Universidad de La Habana; Escuela de medicina; Biblioteca (4)

MEXICO.

- México, D. F.—Academia nacional de medicina (1, 2, 3, 4)
- México, D. F.—Escuela médico-militar; Biblioteca (3, 4)
- México, D. F.—Public health department (4)
- México, D. F.—Sociedad científica Antonio Alzate; Biblioteca (1, 2, 3, 4)
- México, D. F.—Universidad nacional de México; Instituto de biología; Biblioteca (4)

PERU.

- Lima.—Academia de la medicina (4)

URUGUAY.

- Montevideo.—Universidad de la República; Facultad de medicina (4)

VENEZUELA.

- Caracas.—Academia nacional de medicina (4)
- Caracas.—Ministerio de la sanidad y asistencia social; Biblioteca (3, 4)

AMERICA—UNITED STATES

ALABAMA.

- Auburn.—Alabama polytechnic institute; Library (*)
- Birmingham.—Public library (*; also 1, 2, 3, 4)
- Montgomery.—Department of archives and history; Library (*)
- Spring Hill.—Spring Hill college; Thomas Byrne memorial library (*)
- Tuskegee.—Tuskegee institute; Hollis Burke Frissell library (*)
- Tuskegee.—Veterans administration (3, 4)
- University.—University of Alabama; Library (*)
- University.—University of Alabama; Medical library (1, 2, 3, 4)

ARIZONA.

- Phoenix.—Department of library and archives (*)
- Tucson.—University of Arizona; Library (*)

ARKANSAS.

- Fayetteville.—University of Arkansas; Library (*)
- Hot Springs.—Army and navy general hospital (1, 2, 3, 4)
- Little Rock.—University of Arkansas; School of medicine (2, 3, 4)

CALIFORNIA.

- Berkeley.—University of California; Library (*)
- Claremont.—Pomona college library (*)
- Eureka.—Eureka free library (*)
- Fresno.—Fresno County free library (*)
- Loma Linda.—College of medical evangelists (2, 3, 4)
- Los Angeles.—Los Angeles County medical society; Library (1, 2, 3, 4)
- Los Angeles.—Los Angeles public library (*)

- Los Angeles.—University of California at Los Angeles; Library (*)
- Los Angeles.—University of Southern California; Library (*)
- Los Angeles.—University of Southern California; School of medicine; Library (1, 2, 3, 4)
- Los Angeles.—Veterans administration (2, 3, 4)
- Oakland.—Oakland free library (*)
- Redlands.—University of Redlands (*)
- Sacramento.—California state library (*)
- Sacramento.—City free library (*)
- San Diego.—San Diego County medical society; Library (2, 3, 4)
- San Francisco.—Letterman general hospital (2, 3, 4)
- San Francisco.—San Francisco County medical society (1, 2, 3, 4)
- San Francisco.—San Francisco public library (*)
- San Francisco.—Stanford university; Lane medical library (1, 2, 3, 4)
- San Francisco.—Stanford university; Library (*)
- San Francisco.—U. S. Marine hospital (2, 3, 4)
- San Francisco.—University of California; Medical department; Library (2, 3, 4)
- San Francisco.—Veterans administration (3, 4)

COLORADO.

- Boulder.—University of Colorado; Library (*)
 Colorado Springs.—Colorado college; Coburn library (*)
 Denver.—Fitzsimons general hospital; Medical technical library (1, 2, 3, 4)
 Denver.—Medical society of the City and County of Denver; Library (2, 3, 4)
 Denver.—National Jewish hospital; Research laboratories (3, 4)
 Denver.—Public library (*)
 Denver.—Regis college; Library (*)
 Denver.—University of Denver; Mary Reed library (*; also 3, 4)
 Fort Collins.—Colorado state college of agriculture and mechanic arts; Library (*)
 Pueblo.—McClelland public library (*)

CONNECTICUT.

- Bridgeport.—Public library (*)
 Hartford.—Connecticut state library (*)
 Hartford.—Hartford medical society library (1, 2, 3, 4)
 Hartford.—Trinity college library (*)
 Middletown.—Wesleyan university library (*)
 New Haven.—New Haven medical association (1, 2, 3, 4)
 New Haven.—Yale university; Library (*)
 New Haven.—Yale university; School of medicine; Medical library (3, 4, in dupl.)
 New Haven.—Yale university; School of medicine; Medical library; Cushing collection (1, 2, 3, 4)
 New London.—Connecticut college; Palmer library (*)
 Storrs.—University of Connecticut; Library (*)

DELAWARE.

- Newark.—Franklin institute; Biochemical research foundation (3, 4)
 Newark.—University of Delaware; Library (*)
 Wilmington.—Wilmington institute free library (*)

DISTRICT OF COLUMBIA (Washington, D. C.)

- Washington.—Army medical center (3, 4)
 Washington.—Catholic university of America (1, 2, 3, 4)
 Washington.—Georgetown university; Medical department (1, 2, 3, 4)
 Washington.—George Washington university; Medical department; Library (1, 2, 3, 4)
 Washington.—Howard university; Medical department (3, 4)
 Washington.—Library of Congress (*)
 Washington.—Medical society of the District of Columbia (1, 2, 3, 4)
 Washington.—Pan American sanitary bureau (3, 4)
 Washington.—St Elizabeth's hospital; Medical library (1, 2, 3, 4)
 Washington.—U. S. Bureau of Census (1, 2, 3, 4)

CONTENTS

VOL. 1 (1914-15)

- 1-2. A revision of the cestode family Proteocephalidae. G. R. La Rue.
3. Studies on the cestode family Anoplocephalidae. H. Douthitt.
4. Some North American larval trematodes. W. W. Cort.

VOL. 2 (1915-16)

1. Classification of lepidopterous larvae. S. B. Fracker.
2. On the osteology of some of the Loricati. J. E. Gutberlet.
3. Studies on gregarines. E. Watson.
4. The genus *Meliola* in Porto Rico. F. L. Stevens.

VOL. 3 (1916-17)

1. Studies on the factors controlling the rate of regeneration. C. Zeleny.
2. The head-capsule and mouth-parts of Diptera. A. Peterson.
3. Studies on North American Polystomidae, Aspidogastridae, and Paramphistomidae. H. W. Stunkard.
4. Color and color-pattern mechanism of tiger beetles. V. E. Shelford.

VOL. 4 (1918)

1. Life history studies on Montana trematodes. E. C. Faust.
2. The goldfish (*Carassius carassius*) as a test animal in the study of toxicity. E. B. Powers.
3. Morphology and biology of some Turbellaria from the Mississippi Basin. R. Higley.
4. North American pseudophyllidean cestodes from fishes. A. R. Cooper.

VOL. 5 (1919-20)

1. The skull of *Amiurus*. J. E. Kindred.
2. Contributions to the life histories of *Gordius robustus* Leidy and *Paragordius varius* (Leidy). H. G. May.
- 3-4. Studies on Myxosporidia; a synopsis of genera and species of Myxosporidia. R. Kudo.

VOL. 6 (1920-21)

1. The nasal organ in Amphibia. G. M. Higgins.
- 2-3. Revision of the North American and West Indian species of *Cuscuta*. T. G. Yuncker.
4. The larvae of the Coccinellidae. J. H. Gage.

VOL. 7 (1922-23)

1. Studies on gregarines; synopsis of the polycystid gregarines. M. W. Kamm.
2. The molluscan fauna of the Big Vermilion River, Illinois. F. C. Baker.
3. North American monostomes. E. C. Harrah.
4. A classification of the larvae of the Tenthredinoidea. H. Yuasa.

VOL. 8 (1923-24)

1. The head-capsule of Coleoptera. F. S. Stickney.
2. Comparative studies on certain features of nematodes and their significance. D. C. Hetherington.
3. Parasitic fungi from British Guiana and Trinidad. F. L. Stevens.
4. The external morphology and postembryology of noctuid arvae. L. B. Ripley.

VOL. 9 (1924)

1. The calciferous glands of Lumbricidae and Diplocardia. F. Smith.
- 2-3. A biologic and taxonomic study of the Microsporidia. R. Kudo.
4. Animal ecology of an Illinois elm-maple forest. A. O. Weese.

VOL. 10 (1925-27)

1. Studies on the avian species of the cestode family Hymenolepididae. R. L. Mayhew.
2. Some North American fish trematodes. H. W. Manter.
3. Comparative studies on furcocercous cercariae. H. M. Miller.
4. A comparison of the animal communities of coniferous and deciduous forests. I. H. Blake.

VOL. 11 (1927-28)

1. An ecological study of southern Wisconsin fishes. A. R. Cahn.
2. Fungi from Costa Rica and Panama. F. L. Stevens.
3. The structure and development of *Corallobothrium*. H. E. Essex.
4. Caryophyllacidae of North America. G. W. Hunter, III.

VOL. 12 (1929-34)

1. Morphological studies on the genus *Cercospora*. W. G. Solheim.
2. Morphology, taxonomy, and biology of larval Scarabaeidae. W. P. Hayes.
3. Sawflies of the sub-family Dolerinae of America north of Mexico. H. H. Ross.
4. A study of fresh-water plankton communities. S. Eddy.

VOL. 13 (1934-35)

1. Studies on some protozoan parasites of fishes of Illinois. R. R. Kudo.
2. The papillose Allocradiidae; a study of their morphology, life histories, and relationships. S. H. Hopkins.
3. Evolution of foliar types, dwarf shoots, and cone scales of *Pinus*. C. C. Doak.
4. A monographic rearrangement of Lophodermium. L. R. Tehon.

VOL. 14 (1935-36)

1. Development of the pectoral limb of *Necturus maculosus*. H. K. Chen.
2. Studies on North American Cercariae. E. L. Miller.
3. Studies on the morphology and life history of nematodes in the genus *Spironoura*. J. G. Mackin.
4. The life history of *Cotylophoron cotylophorum*, a trematode from ruminants. H. J. Bennett.

VOL. 15 (1937)

1. Experimental studies on *Echinostoma revolutum* (Froelich) a fluke from birds and mammals. P. C. Beaver.
2. Generic classification of nearctic sawflies. H. H. Ross.
3. Studies on the biology of the crayfish *Cambarus propinquus* Girard. W. C. Van Deventer.
4. Taxonomic studies on the mouth parts of larval Anura. R. J. Nichols.

VOL. 16 (1937-38)

- 1-2. The turtles of Illinois. A. R. Cahn.
3. The phylogeny of the Hemiptera, based on a study of the head capsule. C. S. Spooner.
4. A classification of the larvae and puparia of the Syrphidae of Illinois, exclusive of aquatic forms. E. M. Heiss.

VOL. 17 (1938-40)

1. Comparative studies on trematodes (Gyrodactyloidea) from the gills of North American fresh-water fishes. J. D. Mizelle.
2. The Microthyriaceae. F. L. Stevens & Sister M. Hilaire Ryan.
3. The Branchiobdellidae (Oligochaeta) of North American crayfishes. C. J. Goodnight.
4. Cytological observations on *Endamoeba blattae*. P. A. Meglitsch.

VOL. 18 (1941-42)

1. Generic relationships of the Dolichopodidae (Diptera) based on a study of the mouth parts. Sister Mary Bertha Cregan.
2. Studies on Gregarina blattarum with particular reference to the chromosome cycle. V. Sprague.
3. Territorial and mating behavior of the house wren. S. C. Kendeigh.
4. The morphology, taxonomy, and bionomics of the nemertean genus *Carcinonemertes*. A. G. Humes.

VOL. 19 (1942-)

- 1-2. The ostracods of Illinois; their biology and taxonomy. C. C. Hoff.
3. The genus *Conotrachelus* Dejean (Coleoptera, Curculionidae) in the North Central United States. H. F. Schoof.
